“Looking Ahead: Connecting with The Global Search for Peace ”

The International Day of Peace provides an opportunity for individuals, organizations and nations to reflect, on a shared date, on the importance of peace and its achievement in facilitating progress in every facet of human life.

We invite other peace seeking organizations and individuals in Mid Michigan to come together on this occasion to share our common commitment to work toward a more peaceful and just world. We will join citizens around the globe and the United Nations in pursuing this common goal.

Free & Open to the Public
